## **Journey / Voyage of Supreme**

---

The world is uncharted sea of unknown universe.  
With Eternal opponent of its design and pattern,  
The Nature of Bipolarity often predominant.  
Traveller of the world from distant eternal land  
Emerge to work for the cause of humanity,  
Practice the pattern of Involution-Evolution  
First involves in physical form from far distance unknown.  
In Involution he enters in the clay of life,  
To become all possible form of manifestation  
In myriad form and shape pauses to appear.  
In different form of existence he discovers  
Through the world with unpredictable traits;  
Grows with diverse personalities of gradation  
This gradation is the strategy of his hierarchy,  
Travels the world to accesses variant capacity  
To knowledge the different tempers of life.  
As the power and forces are motivating for voyages  
Journey to nature the alien place of covert challenge;  
Challenges are to face and overcome and prevail  
And advance level of higher consciousness.  
Secret Hidden in the chamber of his unknown trench  
Where from the lightness of enormous power exist.  
To build and present the decisive figure on ground  
Bigger than the yet form of human sense and knowledge  
To establish the unique power of his grant and authority.
